

INDEX

FEHÉR, J, KÁTAI, I: On sets of uniqueness for additive and multiplicative functions over the multiplicative group generated by the polynomial $x^2 + a$	3–16
KÁTAI, I., DE KONINCK, J. M.: On the multiplicative group generated by shifted binary quadratic forms	17–28
KÁTAI, I., SUBBARAO, M. V.: On a new proof of a theorem of Indlekofer and Timofeev	29–33
ALY, SH., FARKAS, M.: Bifurcation in a predator–prey model with cross diffusion	35–46
PELEA, C.: Relational structures, multialgebras and inverse limits	47–64
MOCANU, M.: On M -continuous functions and product spaces	65–89
CSÁSZÁR, Á: Extremally disconnected generalized topologies	91–96
KISS, GY., RUFF, J.: Notes on small semiovals	97–105
DOBAI, B.: Notes on the existence of invariant Morse functions	107–113
NYUL, G.: A divisibility problem of binomial coefficients	115–121
CSÁSZÁR, Á: Closures of open sets in generalized topological spaces	123–126
EKICI, E.: On contra-continuity	127–137
BESENYEI, Á.: On systems of nonlinear parabolic functional differential equations	139–156
SZEGHY, D.: On generalized Robertson–Walker space times	157–185
ŠIPUŠ, Ž. M.: Generalized ruled surfaces in the k -isotropic n -space i_n^k	187–205
DÓSA, GY.: Graham’s example is the only tight one for $P \parallel C_{\max}$	207–210
SIMON, L.: On quasilinear parabolic functional differential equations with discontinuous terms	211–229
