

I N D E X

SÁNDOR, CS.: On the minimal gaps between products of members of a sequence of positive density	3–7
HAMMER, P. L., KAS, P., VIZVÁRI, B.: A simple test for integer programming problems with bounded integer variables	9–14
KISS, S.: Generalization of a theorem on additive representation functions	15–18
KRÓLIKOWSKI, W.: On some singularity of a hypercomplex analysis	19–29
KODILA, D. G.: Time-analysis of pseudorandom bit generators	31–43
CSÁSZÁR, Á.: Life and work of Frigyes Riesz	45–57
ČOMIĆ, I., GRUJIĆ, G., STOJANOV, J.: The theory of subspaces in Miron's $Osc^k M$	59–85
DESZCZ, R., SAWICZ, K.: On some class of hypersurfaces in Euclidean spaces	87–98
ELSHEBLI, M. A. T.: Maximum principle and non-negativity preservation in linear parabolic problems	99–108
JURKIN, E., SLIEPČEVIĆ, A.: Butterfly theorems in the hyperbolic plane	109–117
TÚRI, J.: Some integral versions of almost sure limit theorems	119–125
MAJLENDER, P., VIZVÁRI, B.: On generalizing the OGY method	127–143
CSÁSZÁR, Á.: Generalized closed sets	145–150
ZSUPPÁN, S.: On connections between the Stokes–Schur and the Friedrichs operator, with applications to the inf-sup problem	151–171
ANDICS, Á.: On the linear complexity of binary sequences	173–180
