

LIST OF PUBLICATIONS OF M. SZALAY

- [1] M. SZALAY, On the distribution of primitive roots mod p , *Matematikai Lapok* **21** (1970), 357–362 (in Hungarian).
- [2] M. SZALAY, On the class number of quadratic forms, *Matematikai Lapok* **22** (1971), 111–117 (in Hungarian).
- [3] M. SZALAY, On the distribution of the primitive roots of a prime, *J. Number Theory* **7** (1975), 184–188.
- [4] M. SZALAY, On a theorem of E. Landau, *Matematikai Lapok* **22** (1971), 317–321 (in Hungarian).
- [5] M. SZALAY, On a theorem of J.W.S. Cassels, *Matematikai Lapok* **23** (1972), 109–112 (in Hungarian).
- [6] M. SZALAY, A note on the dimensions of representations of S_n , in: *Coll. Math. Soc. J. Bolyai*, **13** (*Topics in Number Theory*, Debrecen, 1974), 383–388.
- [7] M. SZALAY, *Number theoretical extremal problems*, Ph.D. Thesis, Eötvös Loránd University, Budapest, 1975 (in Hungarian).
- [8] P. ERDŐS and M. SZALAY, The mathematical work of Paul Turán, I/2, Statistical group theory and theory of partitions, *Matematikai Lapok* **25** (1974), 229–238 (in Hungarian).
- [9] M. SZALAY and P. TURÁN, On some problems of the statistical theory of partitions with application to characters of the symmetric group, I, *Acta Math. Acad. Sci. Hungar.* **29** (1977), 361–379.
- [10] M. SZALAY and P. TURÁN, On some problems of the statistical theory of partitions with application to characters of the symmetric group, II, *Acta Math. Acad. Sci. Hungar.* **29** (1977), 381–392.
- [11] M. SZALAY and P. TURÁN, On some problems of the statistical theory of partitions with application to characters of the symmetric group, III, *Acta Math. Acad. Sci. Hungar.* **32** (1978), 129–155.
- [12] M. SZALAY, On the maximal order in S_n and S_n^* , *Acta Arithmetica* **37** (1980), 321–331.
- [13] M. SZALAY and J. URBÁN, The mathematical work of J. Surányi, *Matematikai Lapok* **28** (1980), 101–115 (in Hungarian).
- [14] P. ERDŐS and M. SZALAY, On some problems of J. Dénes and P. Turán, in: *Studies in Pure Mathematics (to the Memory of Paul Turán)*, Akadémiai Kiadó, Budapest, 1983, 187–212.

- [15] P.P. PÁLFY and M. SZALAY, On a problem of P. Turán concerning Sylow subgroups, in: *Studies in Pure Mathematics (to the Memory of Paul Turán)*, Akadémiai Kiadó, Budapest, 1983, 531–542.
- [16] P.P. PÁLFY and M. SZALAY, The distribution of the character degrees of the symmetric p -groups, *Acta Math. Hungar.* **41** (1983), 137–150.
- [17] P. ERDŐS and M. SZALAY, On the statistical theory of partitions, in: *Coll. Math. Soc. J. Bolyai*, **34** (*Topics in Classical Number Theory*, Budapest, 1981), 397–450.
- [18] M. SZALAY, *Partition theoretical distribution problems*, Thesis for a candidate's degree, Budapest, 1985 (in Hungarian).
- [19] L.B. BEASLEY, J.L. BRENNER, P. ERDŐS, M. SZALAY, and A.G. WILLIAMSON, Generation of alternating groups by pairs of conjugates, *Periodica Math. Hung.* **18** (1987), 259–269.
- [20] P.P. PÁLFY and M. SZALAY, Further probabilistic results on the symmetric p -groups, *Acta Math. Hungar.* **53** (1989), 173–195.
- [21] P. ERDŐS and M. SZALAY, On some problems of the statistical theory of partitions, in: *Coll. Math. Soc. J. Bolyai*, **51** (*Number Theory*, Budapest, 1987), North-Holland, Amsterdam – Oxford – New York, 1990, 93–110.
- [22] P. ERDŐS and M. SZALAY, Note to Turán's papers on the statistical theory of groups and partitions, in: *Collected Papers of Paul Turán*, Akadémiai Kiadó, Budapest, 1990, Vol. 3, 2583–2603.
- [23] P. ERDŐS, J.-L. NICOLAS and M. SZALAY, Partitions into parts which are unequal and large, in: *Lecture Notes in Mathematics* **1380** (*Number Theory*, Ulm, 1987), Springer, Berlin – Heidelberg – New York, 1989, 19–30.
- [24] M. SZALAY, *Number theory*, Tankönyvkiadó, Budapest, 1991 (in Hungarian).
- [25] M. SZALAY, *Number theory*, 2nd edition with a supplement, TYPOTEX – Nemzeti Tankönyvkiadó, Budapest, 1998 (in Hungarian).
- [26] J.-L. NICOLAS and M. SZALAY, Popularity of sets represented by the partitions of n , *The Ramanujan Journal* **8** (2004), 147–175.
- [27] C. DARTYGE, A. SÁRKÖZY and M. SZALAY, On the distribution of the summands of partitions in residue classes, *Acta Math. Hungar.* **109** (2005), 215–237.
- [28] C. DARTYGE, A. SÁRKÖZY and M. SZALAY, On the number of prime factors of summands of partitions, *Journal de Théorie des Nombres de Bordeaux* **18** (2006), 73–87.
- [29] C. DARTYGE, A. SÁRKÖZY and M. SZALAY, On the distribution of the summands of unequal partitions in residue classes, *Acta Math. Hungar.* **110** (2006), 323–335.
- [30] C. DARTYGE and M. SZALAY, Dominant residue classes concerning the summands of partitions, *Functiones et Approximatio* **37** (2007), 65–96.
- [31] C. DARTYGE, A. SÁRKÖZY and M. SZALAY, On the pseudo-randomness of subsets related to primitive roots, *Combinatorica* **30** (2010), 139–162.

- [32] C. DARTYGE and M. SZALAY, Local distribution of the parts of unequal partitions in arithmetic progressions, I, *Publ. Math. Debrecen* **79** (2011), 379–393.
- [33] C. DARTYGE and M. SZALAY, Local distribution of the parts of unequal partitions in arithmetic progressions, II, *Publ. Math. Debrecen* **81** (2012), 453–486.
- [34] C. DARTYGE and M. SZALAY, On a phenomenon of Turán concerning the summands of partitions, *Acta Math. Hungar.* **149** (2016), 375–395.
